## CHAPTER 2 WORKSHEET: PRIMARY ETHICAL ISSUES

### ANSWER KEY

Hypothetical research scenario 1:

- Informed consent
- Objectivity and neutrality in data collection
- Representing the data truthfully and disclosing the methodology

Hypothetical research scenario 2:

- Informed consent
- Process consent
- Building trust, developing rapport, and setting expectations
- Share findings with participants and relevant stakeholders outside of the academy

Hypothetical research scenario 3:

- Building trust and developing rapport (complicated by deception)
- Maintain confidentiality of participants
- Practice strong objectivity (acknowledging one's biases, values, and attitudes)
- Sensitive portray people and their situations
- Identify relevant stakeholders as audiences for the performance

Hypothetical research scenario 4:

- Informed consent
- Process consent
- Building trust, developing rapport, and setting expectations
- Share findings with participants
- Archive the oral history transcripts
