

CHAPTER 5 WORKSHEET: EXPERIMENTS

Identify whether each of the following is a type of preexperimental design (PD), true experimental design (or classical experiment; TED), or quasi-experimental design (QD).

1. Pretest–posttest control group design	PD	TED	QD
2. One-shot case study	PD	TED	QD
3. One-group pretest–posttest design	PD	TED	QD
4. Time-series experiment	PD	TED	QD
5. Multiple time-series experiment	PD	TED	QD
6. Static-group comparison	PD	TED	QD
7. Solomon four-group design	PD	TED	QD
8. Posttest-only control-group design	PD	TED	QD
9. Nonequivalent control-group design	PD	TED	QD
